I am a University Technician in Computer Applications Development (TUDAI) and Teaching Assistant at the Universidad Nacional del Centro de la Provincia de Buenos Aires (UNICEN). I am a growing developer, exploring both frontend and backend, and committed to create efficient and scalable solutions.

PROFESSIONAL EXPERIENCE

National University of the Centre of the Province of Buenos Aires (UNICEN)

Tandil, Argentina

Teaching Assistant

August 2023-Present

- I facilitate classes on web development, using technologies such as PHP and MySQL.
- Implemented and taught the use of the MVC design pattern for the development of backend oriented applications.
- I guide students in the creation of RESTful APIs and integration with Postman for endpoint testing.

EDUCATION

National University of the Center of the Province of Buenos Aires (UNICEN) -

Tandil, Argentina

University Technician in Computer Applications Development (TUDAI)

March 2023 - Present
